

FAKETOWN LOCAL EMERGENCY OPERATIONS PLAN

Commented [A1]: This sample LEOP serves as a reference for towns for filling out their LEOP. This LEOP has been 'filled out' with fake information to show what a completed LEOP base plan should look like, with commentary added for clarification.

Emergency Steps

- 1) Establish an Incident Command Structure and make appropriate local decisions
- 2) Delegate Authorities to Incident Commander and request Declaration if appropriate
- 3) Contact State Emergency Operations Center (SEOC) if additional help or resources may be needed beyond mutual aid and local contractors (800-347-0488)
- 4) Alert the general population and evacuate as needed
- 5) Activate your Emergency Operations Center to support the Incident Commander as needed
- 6) Contact the Shelter Coordinator and American Red Cross (802-660-9130) to arrange a shelter opening if needed
- 7) Expand the ICS Structure as needed
- 8) Determine if additional operational shift staffing is needed
- 9) Assess damages
- 10) Conduct and document 'Emergency Repairs'

Future steps

- 11) Refer to your local codes and standards, Vermont Stream Alterations Rule, and local hazard mitigation plan before undertaking permanent repairs
- 12) If damages result in a Federal Declaration, request 406 mitigation when completing a Project Worksheet
- 13) Conduct an after-action review and develop an improvement plan

Jurisdictions' Points of Contact: Identify by priority the top three people to be Points of Contact for your Town during an emergency (ex: EMD, Town Manager, Selectboard Chair, Fire Chief)

Commented [A2]: These must be 3 unique individuals that can be reached during an emergency, including events that occur outside of normal business hours.

Commented [A3]: The "time contacted" grey boxes are designed to be filled out during an incident.

County: **Jefferson** Date LEOP adopted: **3/27/2016**
 Name of town EMD/C: **Joe Grey** Date NIMS adopted: **6/17/2001**

I, a select board member, town/city/village manager, or mayor, certify that this Local Emergency Operations Plan has been adopted (certifying individual must have taken, at minimum, ICS 402 or ICS 100 training):
Bethany Blue

Physical Municipal Address: **1235 Purple Street, Faketown, VT**
 Telephone: **555-333-8888** Fax: **555-333-8881** E-mail: **Faketown@fakeaddress.com**
 Alternate communication method: **Telephone: 555-333-8889 / Monitored frequency: 45.52000**

This Local Emergency Operations Plan must be adopted annually, after town meeting day, and submitted by May 1st

Commented [A4]: The date adopted is the date that the plan was adopted by the jurisdiction during that year.

Commented [A5]: NIMS must be adopted by each jurisdiction in the state of Vermont. If jurisdictions have not adopted NIMS, please refer to Appendix D1 – NIMS Adoption.

Commented [A6]: Not only is this official certifying that the LEOP has been adopted by the jurisdiction, but they are also certifying that, per the Statewide NIMS Implementation Plan, they have taken ICS 402 or ICS 100 training. ICS 100 training can be taken over the internet, and can be found at: <http://www.training.fema.gov/IS/NIMS.aspx>. Classroom offerings for ICS 100 and ICS 402 can be found at: <http://www.vtemergencytraining.org>. This training must be completed within 6 months from the date this individual was hired.

Commented [A7]: Examples of alternate communication methods would be an additional phone number, a monitored radio frequency, etc.

Commented [A8]: If a jurisdiction has not submitted their updated LEOP within this timeframe, they will not be considered to have an updated plan with DEMHS. Once they do submit a plan for that calendar year, they will then be considered to have an updated plan. This is especially important when jurisdictions apply for grants, or when towns seek reimbursement after a disaster has been declared.
